

establishing or expanding business in India?

Business in India has been growing exponentially in the past decade with increased Foreign Direct Investments (FDIs) resulting in various international businesses in the Indian context.

India offers enormous potential for growth and development of various industries and provides ample opportunity for organisations of all sizes. In order to set up business and gain sustainability in the Indian market, all international organisations need to overcome the hurdles of unfamiliar legal formalities, procedures and business systems.....

At, NVS MACS, we provide services to companies that require assistance right from registration to strategic business development, facilitating a smooth transition into the business world in India.

We at NVS MACS ensure that all our domestic and international clients focus on their core business practices and strategies while we take care of the rest. We have built strong and longstanding business relationships with all our clients through an integrated value system, offering you solutions based on specific requirements to provide you a fulfilling business experience.

NVS MACS: A Strategic Partnership

At NVS MACS, we are committed to providing value-enriched solutions while assisting you to:

- Enter and set up business in India
- Identify the most suitable model for your business
- Plan and structure growth and development of your business
- Plan and structure inorganic growth (merger, acquisition, takeovers and joint ventures) and assist with the transformation
- Enforce compliance and provide legal advice
- Set up branches or extend product lines within India
- Identify, recruit, train and develop your human resource talent at different stages of your business
- Provide a trusted environment for handling your peripheral activities while you concentrate on the core of your business

At NVS MACS, we analyse your current business requirements, provide you a team based on your specific needs, and suggest sustainable business solutions that will provide you the strategic impetus to develop your business further.
